

Education

- ❖ BS-CS (2016-2020) *CGPA: 2.92*
FAST-NUCES, Karachi
- ❖ HSC (2016) *Grade: A*
Govt. College for Men, Karachi
- ❖ SSC (2014) *Grade: A*
The Educators, Hyderabad

Work Experience

- ❖ Software Engineer - SIBISOFT
Mar 2021 – Present
- ❖ Software Engineer - AGILOSOF
Jul 2020 – Oct 2020
- ❖ Full Stack Developer - SYSCRYPT
Oct 2019 – May 2020
- ❖ Intern - SYSCRYPT
June 2019 – August 2019

Web Application Technologies

- ❖ Java
- ❖ Angular
- ❖ C# / ASP .Net
- ❖ SVN
- ❖ GitHub
- ❖ Node / Nest
- ❖ HTML / CSS
- ❖ Bootstrap
- ❖ MySQL
- ❖ SQL Server

Other Technologies

- ❖ Blockchain
- ❖ Python
- ❖ Web Scrapping
- ❖ Data Warehouse

Certifications

- ❖ Certificate of Data Integration Bootcamp
▪ ASTERA SOFTWARE 2020
- ❖ Certificate of proficiency in Information Systems Management
▪ APTECH COMPUTER EDUCATION 2014
- ❖ Diploma in Information Systems Management
▪ APTECH COMPUTER EDUCATION 2014

University Accomplishments

- ❖ Runner Up Web Dev Competition 2019
▪ Developer's Day

University Voluntary Work

- ❖ Head Logistics
▪ Character Building Society 2019

Objective

To bring my strong sense of dedication, responsibility, and motivation to learn new things to your company, and to utilize my skills for the company's growth.

Industry Projects

- ❖ **ERP for Club Management**
 - Java | Struts | JSP | MySQL

Worked on various new features and production issues including UI and backend
- ❖ **Sales CRM**
 - Angular | Dot Net Core | Nest JS | Firebase

Integrated FCM and real-time call statuses using Signal-R
- ❖ **Purchase Requisition System**
 - Angular | Node

Developed a purchasing requisition portal consuming Microsoft Dynamics APIs
- ❖ **SSO POC**
 - Angular JS | Dot Net WEB API | SAML 2.0

Developed a POC for integration of Server initiated SSO using Azure Active Directory
- ❖ **Delete Database Utility**
 - Windows Forms | Dot Net | Entity Framework

A system that helps in connecting and deleting various databases' data.
- ❖ **Trainers Management System**
 - Angular | Laravel | OAUTH based REST APIs

A platform providing trainers to select their availability as per their skills and an admin panel for the authority to manage them.
- ❖ **Fixona**
 - Angular | Node | OAUTH based REST APIs

A platform providing employees to make complaints and track their progress, and company owner's panel to manage these complaints.

Academic Projects

- ❖ **Document Verification**
 - React | Node JS | Hyperledger Blockchain

A system for document sharing and verification.
- ❖ **E-Commerce System**
 - Bootstrap | PHP | AUTHORIZE.NET

A B2B and B2C based platform through which whole sellers, retailers, delivery companies and end users, buy, sell and deliver goods.

Final Year Project

- ❖ **Blockchain based Smart Microgrid System**
 - Angular | Node | React Native | Hyperledger Blockchain

A system keeping record of the transactions on blockchain made by electricity consumers and producers of a microgrid, and it also provides web interfaces and an app for the users.
